

Public Health Announces 10 New Deaths, 186 Additional Positive Cases of COVID-19

SMYRNA (April 21, 2020) – The Delaware Division of Public Health (DPH) is announcing 10 additional fatalities related to coronavirus disease 2019 (COVID-19) and is providing an update on the number of positive cases and recovered individuals. All data reported through the daily updates are based on data received as of 6 p.m. the previous day.

In total, 82 Delawareans have passed away due to complications from COVID-19. Individuals who have died from COVID-19 ranged in age from 32 to 103 years old.

The most recent deaths all involve individuals with underlying health conditions, including:

- 73-year-old male from New Castle County, long-term care facility
- 79-year-old male from New Castle County, hospitalized
- 79-year-old male from New Castle County, hospitalized long-term care resident
- 84-year-old female from New Castle County, hospitalized
- 51-year-old female from Kent County, hospitalized
- 32-year-old female from Sussex County, hospitalized
- 71-year-old female from Sussex County, hospitalized long-term care resident
- 78-year-old female from Sussex County, long-term care facility
- 92-year-old female from Sussex County, long-term care facility
- 103-year-old female from Sussex County, long-term care facility

To protect personal health information, DPH will not confirm

specific information about any individual case, even if other persons or entities disclose it independently.

The latest Delaware COVID-19 case statistics cumulatively since March 11, provided as of 6 p.m., Monday, April 20, include:

- 2,931 total laboratory-confirmed cases
- New Castle County cases: 1,303
- Kent County cases: 459
- Sussex County cases: 1,139
- Unknown County: 30
- Males: 1,322; Females: 1,600; Unknown: 9
- Age range: 0 to 103
- Currently hospitalized: 263; Critically ill: 71 (This data represents individuals currently hospitalized in a Delaware hospital regardless of residence, and is not cumulative.)
- Delawareans recovered: 565
- 12,935 negative cases*

**Data are provisional and subject to change. Data on negative cases are preliminary, based on negative results reported to DPH by state and commercial laboratories performing analysis.*

Please note for individuals who may be tracking daily negative case totals, yesterday's report included negative cases from both Delawareans and non-residents. The correct number of negative cases as of 6 p.m. April 19 was 12,508. Today's report only includes only Delaware residents, and the total is 12,935 as of 6 p.m. April 20.

As of 6 p.m. yesterday, there have been 218 positive COVID-19 cases involving residents of long-term care facilities in Delaware. Forty-eight residents of Delaware long-term care facilities have died from complications related to COVID-19.

The locations and number of deaths related to long-term care

facilities are:

- Milford Center, Genesis Healthcare (18)
- Little Sisters of the Poor, Newark (11)
- Brandywine Nursing and Rehabilitation Center (5)
- Parkview Nursing and Rehabilitation (2)
- Atlantic Shores Rehabilitation and Health Center (2)
- New Castle Health and Rehabilitation Center (2)
- Delaware Hospital for the Chronically Ill (2)
- Governor Bacon Health Center (1)
- Three other New Castle County long-term care facilities (1 death at each facility)
- Two other Sussex County long-term care facilities (1 death at each facility)

DPH epidemiologists are transitioning to a new data reporting system. During the transition period, not all fields (county of residence, sex) have complete information.

Delaware is considering patients fully recovered seven days after the resolution of their symptoms. Three days after symptoms resolve, patients are no longer required to self-isolate at home; however, they must continue to practice strict social distancing for the remaining four days before returning to their normal daily routine.

If you are sick with any of the following symptoms, stay home: fever, cough, shortness of breath, sore throat, muscle fatigue, or digestive symptoms such as vomiting, diarrhea, abdominal pain or lack of appetite. If you are sick and need essential supplies, ask someone else to go to the grocery store or the pharmacy to get what you need.

If you think you have been exposed to someone with COVID-19, or have symptoms of illness, make sure to distance yourself from others, particularly vulnerable populations. Older adults and people of any age with serious underlying medical conditions – including serious heart conditions, chronic lung

conditions, including moderate to severe asthma, severe obesity and those who are immunocompromised, including through cancer treatment – might be at higher risk for severe illness from COVID-19.

Statewide testing at standing health facility testing sites require a physician's order or prescription to be tested (*Bayhealth patients will be pre-screened via phone without needing to see a provider first). These are not walk-in testing sites. Those without a primary care provider can call the DPH Call Center Line at 1-866-408-1899. In New Castle County, individuals can call ChristianaCare at 1-302-733-1000 and Sussex County residents who do not have a provider can call the Beebe COVID-19 Screening Line at 302-645-3200. Individuals awaiting test results, should wait to hear back from their medical provider. The DPH Call Center does not have test results.

Anyone with a question about COVID-19, whether related to medical or social service needs, should call Delaware 2-1-1; or 7-1-1 for individuals who are deaf or hard of hearing, or text your ZIP code to 898-211. Hours of operation are 8 a.m. to 9 p.m. Monday through Friday; 9 a.m. to 5 p.m. Saturday and Sunday.

In addition, the Division of Public Health asks any Delaware health care, long-term care, residential, or other high-risk facility with questions or concerns to email: DPH_PAC@delaware.gov or call the DPH Call Center at 1-866-408-1899 and press ext. 2.

Questions can also be submitted by email at DPHCall@delaware.gov.

DPH will continue to update the public as more information becomes available. For the latest on Delaware's response, go to de.gov/coronavirus.
